Tuesday, November 1st 2016  
5:30-6:30 PM, HUB 332

Free food and drinks!

---

Stephen McConoughey joined the Program Management team at the Allen Institute in 2016 as a Project and Alliance Manager. Before joining the Allen Institute, McConoughey was CEO of The Ohio Academy of Science, responsible for managing educational and professional programming, organizational budgeting, and building external collaborations. He received his Ph.D. in neuroscience at Weill Cornell Medical College studying transcriptional dysfunction in Huntington's Disease, and completed a postdoctoral fellowship at The Ohio State University studying metabolic dysfunction in cancer cells.
